**GTC HAS
ACCESS TO
GLOBAL RM
PROCURING
THROUGH
SINGAPORE AND
CAN ASSIST IN
GETTING LOWER
RM FOR TIRE
PLANT**

- **NR**
- We can help to source NR from Vietnam, Indonesia, Thailand & Malaysia at very competitive prices. Most of the Buyers are focusing on sourcing NR from Vietnam & Indonesia because of price advantage & we too have good connections in these countries & can assist in sourcing at a very competitive price.
- **SR**
- In our opinion sourcing Synthetic Rubber on a formula basis & long-term contracts is always beneficial & takes care of unforeseen price escalations. However, as a part of the strategy Part of the quantity can be left open to take care of lower spot prices. We can assist in suggesting formula pricing & help in sourcing at the best prices available from any part of the world
- **Fabric**
- We can also assist in sourcing Fabric from Good Chinese sources at most competitive price. Fabric can also be sourced at formula pricing. Similar strategies to SR can also be applied to fabric sourcing.
